10,000 years in our Traditional Homeland, Prince William Sound, the Copper River Delta, and the Gulf of Alaska

Environmental Factors

Majority of work will be completed out of doors. The position requires a considerable amount of physical activity while conducting fieldwork, including hiking and climbing over difficult terrain. Employee will be required to stay for extended periods of time in remote camps (up to 4 months). Work will include exposure to severe weather (heat, cold and wet), hazards associated with power tools, hazards associated with traps to collect fish, and working in areas containing large predators (including, but not limited to, bears and wolves). Work will be conducted in remote settings, often on dangerous rivers, marine habitats, rainforests, snowpack, frozen rivers and lakes, wetlands, and in office settings.
